

DESIGNER STYLE AT AN AFFORDABLE PRICE

GLASS DOORS & DIVIDERS

Riviera
by Alliance Glass Doors

MONACO 6030 trackless bottom

Monaco is our most popular tracking option. The Monaco offers many unique and stylish ways to divide a room or create a closet that fits your decor without floor tracking.

PORTOFINO 6020 pocket door

Portofino is predominantly used in a pocket door application. The Portofino uses a hanging system that allows you to apply the dividers without having to use a floor track.

SAVONA 6010 top guide channel - bottom roller

Savona is our most versatile tracking option. The Savona accommodates wider, taller openings in either ceiling or wall tracking.

Riviera Slider Construction

- 6 mm panel insert gap allows many options. Use light diffusing safety glass, etched or sandblasted designs, mirror panels, wood panels... the choice is yours. You can even combine two unique inserts for a different look on each side, since panels are reversible.
- With hidden rollers, panels are finished on both sides. Use as room dividers, pocket doors or closet doors.
- Optional top hung or top and bottom track systems guide the panels smoothly and quietly within the framed opening. They can be integrated over the wall or in-wall pockets.

Riviera is the ultimate choice for interior sliding doors. The flexibility of panel inserts and reversible panels combine to allow you total design creativity.

DEALER:

ENVIRONMENTAL

For a material or product to be considered green, it should have low impact on the environment and therefore favor environmentalism—the practice of protecting and conserving the natural environment and its resources.

Aluminum and Glass are both such materials.
