PLEASE NOTE: "x" in the product code refers to the stile options - Standard LINE = "T" ; SYSTEM 214 = "214" ; MODERNO 58 = "M58"

The sidelite shoe (shown here in red) slots into the track in the fixedlite receptor below. The bottom rail of the panel fits over and down to sit directly on sidelite shoe by adjusting the top rollers. Cushion Capture stops in the top track are then pushed tight against the top rollers to eliminate panel travel.

Optional silicone sealant may be applied to the three aluminum componets at the floor.

5/16" high fixedlite receptor must be installed on a firm surface using construction adhesive.

It can be installed:

- 1) Flush in the floor (FIG. 1)
- 2) On the floor surface (FIG. 2)

An endcap to cover the shoe and receptor will be provided.

Monaco - System Components

- 1 - Main Track
- 2 - Snap on Fascia
- 3 - Fixed Lite End Cap
- 4 - Cushion Capture
- 5 - Roller
- 6 - Roller Bumper
- 7 - Adjusting Bolt
- 8 - Hanger Lock
- 9 - Rail Cap
- 10 - Floor Post
- 11 - Carrier Post
